

2021 Accreditation Team Evaluation Survey

Accreditation Teams carried out accreditation visits for SALHN, LCLHN, CALHN, RMCLHN, FUNLHN, and NALHN. The SA MET Unit requested valuable feedback from all team members to evaluate the accreditation process to assist with monitoring and continuous improvement

Evaluation Results

100% of participants noted the accreditation team provided timely, appropriate support and advice throughout the accreditation process

100% of participants noted the the SA MET Unit provided the visit team with all the information they required to prepare for the visit

100% of participants considered the workload and time commitment was acceptable

Accreditation Visit Day

Participants agreed that the schedule provided adequate opportunity to interview staff on the strengths of the education, training and support provided to prevocational trainees

Input of Team Members

100% of participants felt their opinions were heard during the accreditation process

Team Work

Feedback:

It is important to keep visits/interviews succinct as it is a fatiguing process for all

More space between interviews would be helpful in some cases where team discussion and reflection would be helpful

Consider the choice of video conferencing application to ensure all team members have access
