A facility may choose not to fill all accredited posts and therefore the number of posts accredited is not necessarily the number of posts funded or available for employment purposes. Additionally there may be PGY2+ trainee medical officers in posts that are not included in the table but are in the process of being accredited.

The PGY2+ numbers represent the upper limit of prevocational trainee posts in each spacialty. These posts can be filled by vocational trainees if they are also accredited by the relevant specialty medical college.

Terms noted with a * indicate an additional temporary position is accredited to enable intern registration in 2019.
