

2022 Accreditation Visit Teams Evaluation Survey

Accreditation teams were appointed to undertake accreditation visits for NALHN, RMCLHN and EFNLHN. The SA MET Unit asked all team members to evaluate the accreditation process for continuous improvement.

Evaluation Results

100% felt SA MET staff provided timely, appropriate support and advice throughout the accreditation process

100% felt their opinions were heard throughout the accreditation process

Evaluation Results

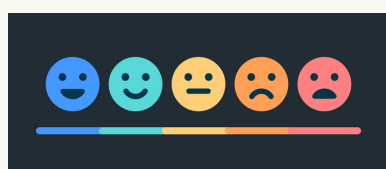

Tasks considered most time consuming:

1. Pre-visit preparation (reading the accreditation LHN evidence)
2. Reviewing the first draft of the accreditation report
3. Understanding the proviso requests to the accreditation standards

Extent the SA MET Unit were utilised for support or advice as part of an accreditation team:

- Understanding the Accreditation Standards
- Understanding the Accreditation Process
- Clarifying proviso responses
- Understanding the responsibilities of an Accreditation Team members part of the process

COMMENTS:

Very supportive and inclusive

It was well organised

Suggestions and Feedback for Improvements:

Slightly longer times to interview would help

It will always be beneficial to have gaps built in to the schedule for extra time/extra interviews

Timeframes tight for some interviews
